

One change you would like to see in your church or organization.

Skip Bell: Request for Work Group Interaction

- Give full support to the church renovation project with voice and finance
- Have our Spanish group secure a church building for their worship services and ministry.
- The home school, church school, and public school youth and parents interact and communicate with each other and get closer to being on the same page.
- The average church member lend their support to the church and not depend so heavily upon the medical/hospital members.
