

Revised Personal Vision Statement
Senior Pastor Leadership
April 5, 2006

By God's grace it's my desire to walk in a vibrant and interactive daily relationship with Jesus Christ, my wife, my church members, and community friends. This means sharing together in the possibilities that the Holy Spirit opens to me on a daily basis.

With the energy from this spiritual walk, it's my desire to contribute to disciple-making and model servant-leadership with my Lord, my wife, my peers, my church, and my community.

This interactive relationship includes both personal nurture of modeling the Christ-like lifestyle as well as church and community involvement in social and recreational events with our family, church members, peers, and community friends. It also includes a passion to complete the assignment of His commission to the community where I live by strategic and collaborative efforts of evangelism.

It's my desire to build God's kingdom and I envision a church that seeks first His wishes and a preparation for His soon return. By the Spirit's power living within my life, I trust that Jesus will finish His work where I live, including me in the process as I intentionally include those for which He has made me responsible.
