ChMn747 Leadership

Cadence in creation: Every day it was good when the day accomplished

But in Gen.2:18 the scriptures say, “It is not good for man to be alone!”

In speaking of community, Stan talked about the Lone Ranger...but even there in the movie there was Tonto, but Indian didn't count.

Daniel Boone was a type of lone ranger, but he also found consorts. His wife had experienced gestation after Boone gone for 2 years. Boone's brother had stepped into the husband role.

King James speaks of helpmeet: animals didn't have to worry about companion, but Adam had a vacancy.

If we are alone we cannot be a person, because Greek speaks to this word as face to face.

The 2-person community became one.

When God looks at us we are one—community—not one!

God made us for community.

When we think of leadership we should think of it in terms of community.

Cain tried to dominate his community, and his brother died.

Not God's intention.
